

What Is the VSPCA?

In July 2011, the non-profit Vincentian Society for the Prevention of Cruelty to Animals was formed through the partnership of Vincentians and U.S. Peace Corps volunteers to address the inhumane treatment of animals in St. Vincent and the Grenadines.

Our Mission

To develop the infrastructure for the protection and rehabilitation of animals in need; to promote public awareness and understanding of the proper care of animals; and to strengthen the human/animal bond.

Our Vision

To provide the education and tools needed to raise public consciousness and sensitivity to the need for protection and compassionate treatment of all animals - wild and domestic.

Why Is Your Help Needed?

- In SVG, too many animals are treated without the respect and decency they deserve.
- Through education programs in the schools and communities, we will address the issues that have been passed down through generations of misconceptions.
- Our spay and neuter program will assist families who could not otherwise afford the surgeries, thereby cutting down on the rampant stray population.
- A mobile clinic will provide general health assistance to the pets of villagers who cannot easily get to, or afford, such services.
- A shelter/fostering program will provide a reprieve for starving, sick and neglected animals.
- St. Vincent and the Grenadines is the last Caribbean country to have an animal rescue organization; volunteers and funds are desperately needed to sustain our efforts.

What Can You Do?

- Your donation will help implement our programs. Please urge your friends to contribute too.
- If you know any veterinarians who would like a working vacation, please tell them about the VSPCA. We will work with tourism stakeholders to assist with costs.
- A source of vet supplies, medications, food - even if near their expiry date - would be most welcomed.
- Please stay in touch with us. We can be reached at:
